Saturday 1 November 2025 (B) – Shinkansen to Toyama

We commence our travel in Japan with a journey from Tokyo to Toyama, aboard the **excellent Japanese high speed 'Shinkansen' service**. Running at speeds of up to 320 km/h, it is known for punctuality (most trains depart on time to the second), comfort (we travel in 'green car' - first class), safety and efficiency - it is an exhilarating and comfortable experience. On arrival we leave our luggage at the hotel, and in contrast to the modern Shinkansen, we experience the **local railway to explore the Tateyama Mountain Range**. We travel along the deepest V-shaped valley in the entire country. View the beauty of the valley between Unazuki Onsen and Keyakidaira on our 1 hour and 20 minute journey, covering 20.1 kilometres, including 41 tunnels and 22 bridges.

There are many hot springs along the route, and at our destination in the mountains you can view the Kurobegawa River and there is the opportunity for those who wish to experience an outdoor foot hot spring experience – or even a hidden **onsen in nature!** Return to Unazuki Onsen and then to Toyama. "Toyama" means "rich with mountains", and the name doesn't disappoint! The city offers stunning views of a series of 3,000 metre peaks of the Northern Japan Alps. Located on the picturesque Japan Sea, Toyama has offered **fresh seafood** not only to locals but also to those who live in Tokyo. You must try famous white shrimp, which is recognised as **'the jewel of Toyama Bay'** – raw or as tempura, it is a local delicacy. Overnight Toyama.

Sunday 2 November 2025 (B/L) – Kanazawa , Kenrokuen Garden and the impressive Toyama glass museum

From the time the Maeda family lords of the Kaga domain gathered skilled craftsmen from all over Japan in the 17th century, Kanazawa became the epicentre of dozens of traditional crafts such as elegant gold leaf, silk, brilliant dyeing, pottery and more – and the tradition has continued to flourish. Kanazawa is an authentic castle town, with an impressive **castle park**, located opposite **Kenrokuen**, justifiably classified as one of Japan's "three most beautiful landscape gardens" – and one of the three most famed in Japan. The 21st Century Museum of Contemporary Art is also very popular, and we enjoy luncheon here today, whilst the Nagamachi **samurai district** gives an insight into an historical Japanese lifestyle. There is too much to see in a day, so if specific museums appeal, let us know so we can arrange for you to visit them independently. We return to Toyama for a late afternoon visit to the **Toyama Glass Art Museum**. Showcasing a collection of glass art from around the world, the beautifully modern building that houses the museum was designed by world-renowned architect Kuma Kengo and also contains the city's impressive public library. Our main focus is the sixth floor which hosts the "Glass Art Garden" exhibition, boasting a collection of installations by **Dale Chihuly**. You will be impressed! Dinner is at leisure and overnight Toyama.

Monday 3 November 2025 (B) – Tateyama Kurobe Alpine Route

Today we experience the exhilarating **Tateyama Kurobe Alpine Route** - a unique and spectacular journey through the Northern Japanese Alps, traversed by **various means of transportation** including funicular, bus, cable cars, electric buses, a ropeway and a walk across the impressive Kurobe Dam wall. Completed in 1971, the route connects Toyama Prefecture with Nagano Prefecture. The main attraction of the Tateyama Kurobe Alpine Route (as well as the impressive transport infrastructure!) is the **magnificent scenery of the Tateyama Mountain Range**, part of the Chubu Sangaku National Park. With an elevation change of 2,400m through the route, we can enjoy the various scenery including the autumn colours. At Murodo (2,450m) enjoy a **short walk to Mikurigaike lake** which reflects the magnificent alps on its pristine surface. We return to Toyama, enjoy an evening meal at leisure and overnight Toyama.

Tuesday 4 November 2025 (B) – Takayama

This morning we join the Ltd Express 'Hida' for the **scenic journey to the historical city of Takayama** in Gifu Prefecture. Known for its beautifully **preserved old town** in the mountains, the city gained importance as a source of high-quality timber and highly skilled carpenters during the feudal ages. As a result, the city was placed under direct control of the central government and enjoyed significant prosperity considering its remote mountain location. **Sannomachi Street** survives in a particularly fine state with old homes, shops, cafes and sake breweries, some of which have been in business for centuries. Several open their doors providing a glimpse behind the facade into the former living quarters of local merchants, exhibit traditional household goods, as well as local arts and crafts. **Explore the atmospheric old town and taste high-quality 'Hida beef'** - local marbled beef. We return by 'Hida' Ltd Express to Toyama. Dinner at leisure and overnight Toyama.

Wednesday 5 November 2025 (B/D) – Akiu Onsen - ryokan experience, onsen & Japanese cuisine in yukata

A mid-morning departure by Hokuriku shinkansen to Omiya, where we change to the Tohoku shinkansen for the journey north to Sendai, then local train to Ayashi, and finally to our coach. We stay in the beautiful ryokan (traditional accommodation) and enjoy the **hot springs** and **fresh Japanese cuisine wearing the yukata**. Overnight Akiu Onsen.

Today explore the history of whisky making in Japan – and learn why it is winning awards, annoying the Scots ! In 1918 a young Japanese man set off to discover the secret of whisky making – today his efforts are evident in two fine distilleries. We visit the **Miyagikyo Distillery** and taste their produce. Then to a fledgling winery in Akiu Onsen for a **picnic luncheon** – the luncheon and not the wine is the feature - followed by a visit to the Sendai **Kaleidoscope Museum**. The museum is home to a range of kaleidoscopes, some that are rare in the world. Others are large and mechanical, some smaller designed by various artists. Among these, there is an unusual kaleidoscope in which your appearance becomes part of the experience. A relaxing day, experiencing different elements of the ryokan, and overnight Akiu Onsen.

Friday 7 November 2025 (B) – to Hakodate, Hokkaido through the undersea tunnel, brilliant night view

After breakfast we transfer to Sendai to join the shinkansen for our journey north to **Hokkaido** and the **port city of Hakodate**. Our journey to Shin-Hakodate-Hokuto aboard the JR Hokkaido / East Japan shinkansen includes the **undersea crossing from Honshu - through the 53.85km Seikan Tunnel** – one of the world's longest undersea tunnels. This afternoon explore the **Motomachi District** – as one of the first Japanese harbour cities to be opened to international trade after the country's era of isolation, Hakodate experienced notable influence from overseas, and the foreign population's former residential district and its Western style fort are among its attractions. Either today or tomorrow (depending on weather) we will ascend **Mt Hakodate to enjoy one of Japan's great night views**. Enjoy a meal in the historic warehouse district of the port, or at one of the many restaurants near the hotel. Overnight Hakodate.

Saturday 8 November 2025 (B/L) – morning market and autumn colours of Onuma Koen

Hakodate developed as a port town for trading with foreign countries at the end of the 19th century – at the bay area near the railway station and our hotel, a **Morning Market** is held where more than 360 stalls packed tightly together attract shoppers with freshly caught squid, scallops, salmon eggs, Atka mackerel, crabs, sea urchin, and many other fish and shellfish, as well as fresh produce such as **Yubari melon**, which is super sweet and melts in the mouth. We visit the market and taste some flavours of Hokkaido. Then we head to **Onuma Koen National Park**, with nearby Ko-numa Marsh and Junsai-numa Marsh, it is 24 kms in circumference, formed by the eruption of Mt. Koma-ga-take. With 126 islands, large and small, it is famous for the spectacular views of small islands connected by 18 bridges. Explore this beautiful location, crossing small bridges between islands dotted in the lake by boat and on foot, and then enjoy luncheon at a lovely lake side restaurant. Return to Hakodate in the afternoon and there is free time to explore – dinner at leisure and overnight in Hakodate.

Sunday 9 November 2025 (B) – Kosetsuen Garden, Goryakaku Fort and the Ainu people

Today we explore where autumn foliage is best. Not far from Hakodate, Miharashi Park features a Japanese-style garden, "**Kosetsu-en**". With about 150 varieties of trees, the flowers and the quaint buildings provide the perfect foil for each other – the autumnal foliage is often too beautiful for words. Ginkgo, palmate maple, red maple, oliver maple and baby's breath, lend red and yellow to Kosetsuen. In season the Red Foliage Garden is elaborately adorned and the garden is simply a riot of colours and full of poetic charm. Alternatively we may visit **Lake Tōya** - a volcanic caldera lake in Shikotsu-Toya National Park, surrounded by serene, quiet and blissful forest. Closer to home, **Goryakaku Fort** is a western-style fort completed almost 150 years ago. A magnificent panoramic view of the entire star-shaped estate and surrounding moat unveils itself to visitors from the observation platform of the 107-metre Goryokaku Tower, which stands adjacent to the fort. The moat is surrounded by some 1,600 cherry trees, making the Goryokaku one of Hokkaido's top cherry blossom viewing spots in springtime which turns into a blazing scene of crimson foliage in the fall. The Ainu are Hokkaido's indigenous peoples of Northern Japan – learn of the history, culture and present day life of the indigenous peoples at the Hakodate City Museum of Northern Peoples. For those interested in maritime history, visit the former ship, now a museum, that crossed between Honshu and Hokkaido before the opening of the undersea tunnel. For dinner at leisure tonight, perhaps enjoy a casual 'izakaya' style restaurant in the historic warehouse district near the harbour. Overnight Hakodate.

Monday 10 November 2025 (B/D) – to Oirase Gorge, a peaceful and beautiful onsen resort in the forest

Leave Hakodate by shinkansen, and return through the undersea Seikan rail tunnel to mainland Honshu. At Shin-Aomori we change to a coach, and head south through the Towada-Hachimantai National Park - 1,400 to 1,600 metres above sea level – to our destination of Yakeyama. Near the top of the plateau we pass a wetland boasting more than 160 kinds of plants. From spring through autumn you can see Japanese skunk cabbage and yellow alpine lilies in full bloom. There are also three emerald green marshland lakes located in the beech forest on the plateau, and views of Mt Hakkoda are a bonus if weather is good. Our accommodation for the next three nights is **the only hotel built on the edge of Oirase Gorge**, part of the national park. With clear streams, mossy rocks, surrounded by a forest of deciduous broad-leaved trees, the fresh greenery and autumnal colouration of the forest are impressive - the landscape and its beauty have been designated a location of special scenic beauty, and as a natural monument. Our hotel provides the perfect location for **some rest and recreation halfway through the tour** – from previous experience, important to ensure you are rested for the next part of our journey. Enjoy a wonderful onsen, lovely dinner and overnight Oirase Gorge.

Tuesday 11 November 2025 (B/D) – Cruise on Towadako Lake, and walking along the gorge

Towada is the largest caldera lake on Honshu, characterised by two large peninsulas extending nearly a third of the way across the lake. As you will see it is a popular autumn colour destination, especially along the **Oirase Stream** at the lake's eastern shore, which is rapidly becoming one of Japan's most famous spots to see autumn foliage. **Lake Towada** is surrounded by a steep, forested caldera rim that rises several hundred metres above the lake's surface, but its shores are relatively undisturbed,

except for the small village of Yasumiya. We enjoy the cruise on the lake, visit a fine folk craft boutique and inspect the tourist and National Park information centres to learn of the flora and fauna of the area, and then return to Oirase Gorge. There is also the option to **walk along part of the gorge** for those who wish to enjoy some walking today, as well as tomorrow. We will offer a couple of options for the walkers depending on how much you wish to walk. Enjoy a refreshing onsen, and then a lovely dinner, before retiring. Overnight Oirase Gorge.

Wednesday 12 November 2025 (B/D) – a relaxing walk along the stream and relax at our ryokan

Today you have the opportunity to relax in and around the ryokan and recharge your batteries or enjoy a short walk along Oirase Gorge. It is about 10 kilometres from the ryokan to Lake Towada, and you can experience as little or as much as you wish. The hotel offers a shuttle bus service along part of the gorge, and nearby the hotel is a pleasant café for luncheon. Enjoy a refreshing onsen, and then a lovely dinner, before retiring. Overnight Oirase Gorge.

Thursday 13 November 2025 (B/D) – to Morioka

We depart from our hotel by coach, and head east to Hachinohe, rejoining the Tohoku shinkansen for the journey south. Our destination is the vibrant city of Morioka – listed by the New York Times in 2023 as one of 52 ‘must go’ destinations – a city of just on 300,000 people, “with strong socioeconomic foundations that elevate their residents, enabling them to live rich, full and creative lives. Cities that feel — to distill it to a single word — healthy .” Iwate Park, known for its spring cherry blossoms and autumnal colours, is home to the ruins of 17th-century Morioka Castle. Surrounded by mountains and intersected by multiple rivers, Morioka is also famed for its local wanko soba. Enjoy a stroll along its streets and then an included Korean BBQ dinner – a speciality of the city. Overnight Morioka.

Friday 14 November 2025 (B) – Geibikei Gorge and Hiraizumi, UNESCO World Heritage

We visit **Geibikei Gorge** - formed through river erosion by the Satetsu River in much the same way as the Grand Canyon in the US, but on a much smaller scale. Today, the gorge is surrounded by sheer walls of rock stretching over 100 metres on either side. Board a guided boat tour along the gorge, with the serene beauty of Geibikei ,while being serenaded by the drivers of Venetian-style boats. **Hiraizumi** provides a change of pace - boasting more than 3,000 National Treasures and historical sites surrounded by idyllic gardens. The Tohoku region in Japan's northeast thrived in the 12th century under the reign of the Oshu Fujiwara clan, and Hiraizumi was the centre of this prosperity. **Chusonji Temple** is

home to the Konjikido Golden Hall, an ornate structure covered in lacquer containing gold foil and studded with gold and silver, a symbol of the gold culture of Hiraizumi. Peer inside to find numerous Buddhist statues and detailed decor. We return to Morioka, with dinner at leisure and overnight Morioka.

With a short break in Tokyo to purchase some luncheon, we arrive Nagoya mid-afternoon. Enjoy an exploration of the dynamic shopping area around the station and our hotel, before an included dinner tonight in a local speciality restaurant. Overnight Nagoya.

Sunday 16 November 2025 (B) – the Nakasendo Walk - forest, waterfalls and traditional villages

The **Nakasendō** (Central Mountain Route), also called the Kisokaidō, was one of the five routes of the Edo period, and one of the two that connected Edo (modern-day Tokyo) to Kyoto. There were 69 stations (staging-posts) between Edo and Kyoto. Although there has been much modern development along the Nakasendō, a few stretches remain in their original form. The most well-known section lies in the Kiso Valley, between Tsumago-juku in Nagano Prefecture and Magome-juku in Gifu Prefecture. The area was first made famous by the early 20th-century writer Shimazaki Tōson, who chronicled the effects of the Meiji Restoration on the valley in his landmark novel *Before the Dawn*. We traverse this eight-kilometre section of the Nakasendō which can be walked comfortably, and both Tsumago-juku and Magome-juku have preserved and restored traditional architecture. The 8.6k walk between these historical post towns requires around three hours, with forests, restored paving and fine views of waterfalls along the way – it is also possible to walk lesser distances (mostly the downhill section) for those who wish. Dinner is at leisure, and overnight Nagoya.

Monday 17 November 2025 (B) – Nagoya Palace, Japanese art of Shibori or JR Central Rail Maglev Museum

This morning we visit the splendid **Nagoya Castle Palace** - restored to its former glory, it is a stunning architectural site and the impressive paintings and internal rooms are amazing. Then an option to earn of the Japanese art of **shibori** - a method of dyeing cloth by binding, stitching, folding, twisting, and compressing. In Japan, the earliest known example of cloth dyed with the shibori technique dates from the 8th century where indigo was the main dye used. Today in Arimatsu, shibori-tie-dyed silk fabric is still made. Arimatsu is one of the 53 stage towns of the Tokaido (one of the five major highways) which flourished during Edo period. It still retains the atmosphere with the traditional street lined with typical Japanese merchant houses. Many shops deal in the traditional specialty products of Arimatsu shibori. Alternatively you can join a group for a visit to the **Central Japan Railway's Maglev Museum** - opened in 2011 the museum seeks to educate visitors on the advances in high speed rail in Japan and displays several trains including historic steam locomotives, world record setting experimental shinkansen (bullet train) and the latest magnetic levitating trains (maglev). A collection of 39 heritage train cars are displayed in the museum. Many of these can be entered or viewed from underneath, and are accompanied by a host of exhibits explaining the different parts of the trains and all aspects of their operation and maintenance. Another section of the museum is dedicated to maglev trains and JR Central's plans to construct a maglev high speed link between Tokyo and Osaka. It also boasts an enormous model rail layout. In the afternoon we return to Nagoya for dinner at leisure and overnight.

Tuesday 18 November 2025 (B) – to Okayama, Korakuen Garden and Okayama Castle

This morning we head south west with the Central and then West Japan Railway shinkansen to Okayama. On arrival we leave our luggage at our hotel opposite the station, and visit **Okayama Castle**, also known as "crow castle," due to its black exterior (in contrast to the White Heron Castle in Himeji). Recently emerging from excellent restoration, the castle with its displays provide an insight into the role of castle's in Japan's history. Adjacent is the beautiful **Korakuen Garden – considered another of the 'three best gardens in Japan.'** Located just beside Okayama Castle which can be seen from the garden as "borrowed scenery," it is also home to the Japan Crane Society and their birds are housed in a corner of the garden. A magnificent strolling garden, it displays all the features of a quintessential Japanese garden. Okayama is also home to an excellent collection of museums – the Prefectural Museum of Art; the Hayashibara Museum of Art; Yumeji Art Museum; the Orient Museum and the Okayama Prefectural Museum. We will provide advice for you to explore these at your own pace. Dinner at leisure in one of the many restaurants nearby or at our hotel, then overnight Okayama.

After breakfast we head to the port of Uno to enjoy the short **scenic ferry crossing on the Inland Sea**, to explore **Naoshima** – famed for its **outdoor art and Benesse House**. Benesse House Museum opened in 1992 as a facility integrating a museum with a hotel, based on the concept of "coexistence of nature, art and architecture." Designed by famed **Tadao Ando**, the facility is built on high ground overlooking the Seto Inland Sea and features large apertures that serve to open the interior to the splendid natural surroundings. In addition to exhibiting painting, sculpture, photography and installations in its collection. The Museum also contains permanent site-specific installations that artists have created especially for the building, selecting locations on their own and designing the works for those spaces. The Museum's artworks are found not just within its galleries, but in all parts of the building, as well as in scattered locations along the seashore that borders the complex and in the nearby forest. A lovely luncheon is included today in the gallery's restaurant. A collective term for six bridges that connect Kojima in Okayama Prefecture on Honshu and Sakaide of Kagawa Prefecture on Shikoku, spanning five islands, the bridges took 40 years and a tremendous amount of money to build. **The structure is more than 13 kilometres long, and consists of three suspension bridges, two oblique suspension bridges and one truss bridge**. We visit **Tokushima**, the capital of the prefecture of the same name. Famed for its **Awa Odori festival**, tens of thousands flock to the city in August to experience the "Fool's Dance" whose origins date back 400 years. This nickname comes from the lyrics to the common dance song, which translates as follows: **"Fools dance and fools watch, if both are fools, you might as well dance"**. Though not August, we will experience the spectacle at the **Awa Odori Kaikan Museum** - there are explanations on the history and attractiveness of Awa Odori, exhibitions of costumes and musical instruments used, a 3D theatre where you can enjoy the live dance, and the main attraction - an actual Awa Odori performance. We enjoy luncheon, and weather permitting, a boat ride along the canals of Tokushima, before returning to Okayama for an included dinner and overnight Okayama.

The latter was built at the end of the 8th century, the main hall was constructed in the 17th century, and is famous for its location overhanging a cliff. Pei, the celebrated architect of the Glass Pyramid at the Louvre and the West Wing of the Boston Museum of Fine Arts**. Based on an image of Shangri-La, eighty percent of the building is buried underground to blend into the natural landscape. The collection contains antique and ancient pieces from a range of regions, including Japan, China, Greece, Rome and the Middle East. In the early afternoon we return to Kyoto, where there is time for you to explore at leisure, visiting specific places of interest, or to join us to where autumn colours are best. GENERAL COMMENTS AND BOOKING CONDITIONS

ACCOMMODATION, MEALS AND RAIL TRAVEL

Accommodation is generally in 4 star standard hotels. In some locations the best available may not be 4 star, and in some locations we have selected superior hotels or ryokans as part of the experience of the location. Some nights we have included traditional ryokan accommodation with tatami mat floors and comfortable futon beds prepared on the tatami matting. Shoes need to be removed whilst in the ryokan, in rooms and at meals. Ryokan meals are generally included, and whilst we will aim to accommodate dietary requests, some meal experiences are a traditional Japanese set meal. In some locations we have selected simpler 'business hotels' where rooms are smaller and meals simpler, but their location near railway stations makes them ideal when we spend limited time in the hotel. In some hotels twin rooms are larger than double rooms, and in some cases we may provide a larger room with two large single beds if you have selected double bed accommodation. Meals are included as shown - breakfast is included most mornings, however as a general rule we have not included lunch or dinner when there is a range of options, and you can choose the style and time of dining that you prefer. Meals included are indicated as (B) Breakfast, (L) Luncheon and (D) Dinner. Travel is generally in first class (Green Car) seats, though some services only offer standard accommodation and on some trains Green Car accommodation can be limited – we'll arrange the best seating possible. There is a wide range of options for eating in Japan - from very simple meals to elegant dining experiences, and from traditional Japanese food, through to the very best of international western cuisine. The choice is yours. For lunch we'll identify a number of eating options. Every town in which we stay where dinner is not included has a range of restaurants where it is relatively easy and inexpensive to eat well and enjoyably. Major department stores have food halls with freshly prepared food. Most shops and at all railway stations you can purchase a 'bento' - local take away meal boxes with a fresh range of meats, seafood, vegetables and rice. Bakeries offering tempting fresh items abound, especially at railway stations. Eating and enjoying the foods of Japan is part of the tour experience. You can eat as simply or as lavishly as you wish. Japan is exceptionally clean, fresh food a priority, and preparation and hygiene surpass Australia.

PERSONAL SERVICE AND MEETING INDIVIDUAL NEEDS

SJR prides itself on its personal service and attention to detail. The tour is escorted by the two organisers of the itinerary who have both travelled to Japan many times, or lived in Japan for many years. You are assured of the utmost service and our commitment to your satisfaction. We recognise each guest has different interests, and we will provide the opportunity to allow you to rest from the group, explore by yourself, return to particular places, or visit friends or special sites you've read about – if you wish. If your interests are gardens or castles or scenery, you can tailor your activities to focus on these specific interests. Detailed advice and assistance will be given to help you, and most travel requirements can be made for you.

CAPACITY TO PARTICIPATE IN THE TOUR

Fitness and mobility are necessary for participation in the tour. Tour passengers must be able to manage their own luggage, and to carry/wheel it on and off trains, from stations to hotels, and if necessary, up or down a flight of stairs. Whilst most stations have escalators / elevators, the older and regional stations may not. Visiting temples and shrines involves walking up and down flights of steps, and in some cases removing shoes. The tour involves travel on the public transport networks of the many Japanese cities. By payment of your deposit and tour fare you confirm that you are of a suitable level of mobility and fitness to participate in the tour, and are aware of the nature of the tour. Whilst it is often possible to use taxis to reduce the distances walked, this option is at your own expense. You may choose to not participate in an activity if you consider it too strenuous, and remain at the hotel, or explore locally.

FARES AND BOOKING PROCEDURES

The tour is limited in size to 20 guests, and bookings will be confirmed in order of receipt of a deposit of \$3,000 per person. **The tour fare is \$18,780 per person (twin share) plus airfares from Australia, with a \$3,695 single supplement for hotels.** The tour fare includes first class rail travel in Japan (some rail services may not have first class accommodation available, or in some instances, not sufficient for the whole group, and in these cases, standard rail accommodation is provided); all bus, tram, metro and light rail transfers when part of the group; all accommodation on a twin share basis (single accommodation is available on payment of the single supplement); sightseeing and entrance fees as indicated, and meals as shown in the itinerary for each day. The fare does not include meals not identified, drinks, excess baggage charges, gratuities, telephone calls, laundry, any items of a personal nature, travel outside the organised group, or taxi usage when not part of the planned transport means. Due to the variety of interests of individuals, and the large range of temples, gardens, shrines, museums etc. available for inspection on some days, we have included key features in the tour cost. Inspection and entry fees when not part of the planned group activity are not included in the tour cost. HOTEL ACCOMMODATION

Single rooms: Double rooms: Twin (two bedded) rooms:

A single supplement is payable for sole use of rooms in hotels/ryokans.

RYOKAN – TRADITIONAL JAPANESE ACCOMMODATION

The tour includes some accommodation in quality Japanese ryokans. These involve sleeping on tatami mat floors, with futons (thin mattresses) and require you to remove shoes in the ryokan, the rooms, and sometimes at dinner and breakfast.

Please advise below if you are not able (or do not wish) to sleep on tatami mats with futons in Japanese ryokan hotels, or do not wish to remove your shoes. We will then book you a western style hotel room in the ryokan, or at a nearby western style hotel.

- I prefer Japanese style rooms, with **futons laid on the tatami mat**, in the ryokan (Note: you can add two or three futons to make the mattress more comfortable if you wish.)
- I prefer western style beds in the ryokan, and **am happy to remove shoes** in the ryokan when necessary
- I prefer western style beds, and **do not wish to remove shoes** in the ryokan (we will accommodate you in a nearby hotel.)
